

Summer Meadow's Farm

All raw goat milk, artisan cheese and dairy products

We're back with Live Earth Farm again in a new way! This year, you can purchase a share in one of our goats to receive your milk or milk products.

We'd like to share our dream with you. Mine began 30 years ago when my first child was conceived and I dreamed of nourishing her with goat's milk, (I was raised a city girl!) I've been milking goats ever since to raise seven healthy children. We love goat's milk passionately, and our goats! There's nowhere I find more peace or entertainment than in the meadow with the herd grazing. They take turns nuzzling me for petting and the newborn kids frisk and dance those special dances of joy only baby goats know. When the sun's rays turn golden towards sunset, the matriarch doe calls the herd to go home and they all hear her voice and turn to follow. It's so magical to enter their world.

So you can buy a share in a milking doe and we'll keep her on the farm, milk her and bring you her wonderful milk in the form you like. We'll send you a picture of your goat and her story. You can visit her anytime and bring her treats!

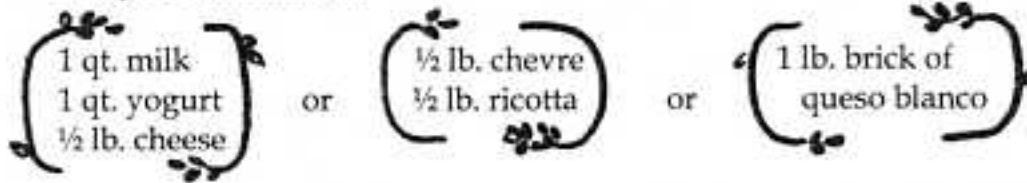

We milk all our goats peacefully by hand. We feed them veggies from our garden, they graze our lush pastures and we supplement with hay and grain. We're working towards having watered pastures for them to graze year round.

(over for more)

Here's how it all works. One share in a goat costs \$65 per month and provides you the equivalent of 1 gallon of milk per week in a combination of your choice. (1 gallon milk=1 pound cheese) I offer quarts of milk, yogurt, and buttermilk, and 3 cheeses; ricotta, French chevre, and queso blanco in ½ or 1 pound size.

Sample combinations:

We can accommodate a change of combination, just not weekly. Like Live Earth Farm, you can split your share with a friend if your family's small. (I myself consume more than a share!)
